Shafay Rameez

Lahore, Pakistan · 28100056@lums.edu.pk · 03248929065 · LinkedIn · Portfolio

Product designer and front-end developer who takes products from Figma wireframes to deployed code. Experience across EdTech startups, HCI research and client websites, with a focus on thoughtful, user-centred design.

Experience

Head of Technology — The Graduate Route · May 2026 – Present *University and scholarship application consultancy*

- Designed, developed and deployed the company website from scratch, starting with wireframes and high-fidelity mockups in Figma.
- Built the front end in React, TypeScript and Vite with a custom design system, scroll animations and full SEO setup; deployed on Vercel.
- Built an admin portal to manage new and existing clients, packages and invoices.
- Automated billing, payment notifications, client emails and session bookings, cutting manual admin work.
- Manage domain, hosting and analytics.

Product Design & UI/UX Intern — Sukrat AI · June – August 2026 *AI-powered EdTech startup*

- Designed core product features, including user dashboards and course creation interfaces.
- Contributed to UI/UX development and QA testing across the application.
- Produced website improvements and mockups for the marketing site.
- Worked in a fast-paced startup team, iterating with engineers and stakeholders.

Research Intern — CHISEL Lab, LUMS · July 2026 – Present *HCI and participatory design lab working with communities at the margins in the Global South*

- Co-developing Seekho Sikhao, a scaffolded LLM tutor for low-SES students (see Projects).
- Designing a gamified application that captures digital biomarkers of stress and depression in Pakistani teens.

Projects

Seekho Sikhao — Scaffolded AI Tutor for Low-SES Students · CHISEL Lab

- Designed and developed the interface for a chatbot that guides students step by step instead of giving direct answers, with Urdu text-to-speech.
- Rebuilt the system from feedback on the first version, then ran field testing across 3 schools over the summer.
- Observed student interactions and compared them with use of general-purpose LLMs, iterating on the design between rounds.
- Co-authoring a research paper on the findings (targeting CHI 2027).

Miyan Mithu — Website Design & Development · Ongoing

- Designing and developing the website for an initiative promoting children's Punjabi books, stories and culture.

Investomania — Stock Market Simulation · LUMS Entrepreneurial Society

- Built the event website and the backend for a live stock trading simulation used by participants during the event.

Leadership

Team Manager, IT & Automations — LUMS Entrepreneurial Society · Oct 2024 – May 2025

- Led IT and automation for YLES, an event with 1,000+ participants; developed the event website and the Investomania simulation backend.
- Ensured smooth technical execution during live simulations and handled participant queries.

Director, Special Projects — The Music Society of LUMS · July 2026 – Present *Previously Assistant Director (2025–26) and Team Member (2024–25)*

- Lead planning and execution of departmental projects, including workshops, open mics and outreach initiatives.
- Direct programmes such as Raah-e-Moseeqi to widen accessibility and participation in LMF.
- Mentor project heads in turning ideas into structured, executable plans.

- Coordinate with the Executive Council on project development, operations and community engagement.

Other Experience

Private Tutor · Aug 2024 – Present

- Tutor O Level Mathematics, English and Sciences, plus SAT preparation, one-on-one.
- Design personalised lesson plans, practice sets and mock tests to track progress.

Education

Lahore University of Management Sciences (LUMS) · BS Computer Science · Expected 2028

Relevant coursework: Human Computer Interaction, Advanced Programming, Databases, Operating Systems, Cloud Development, Inclusive Pedagogy, Algorithms

Roots IVY College of Management Sciences · A Levels

3 A*s, 1 A — Physics, Chemistry, Mathematics, Computer Science

Awards

- **Dean's Honour List**, LUMS · 2024–25, 2025–26
- **Honor Roll**, Roots IVY International School · Aug 2024

Skills

- **Design:** Figma, wireframing, prototyping, design systems, UI/UX, user research, usability testing
- **Development:** React, TypeScript, JavaScript, MERN stack (MongoDB, Express, Node.js), HTML/CSS, Flutter
- **Languages:** Python, C++, SQL
- **Tools & Deployment:** Git, Vercel, domain & hosting management, workflow automation, QA testing
